

Surrey's Spring Line

Corrections

- p.50 The upper caption incorrectly identifies the Daimler Fleetline as a Leyland Atlantean, and forgets that the name of Dorking North Station changed to Dorking Station on 10th July 1967.
- p.51 The photographer advises that the photograph was actually taken after the bus entered preservation in 1982 and was making a tour of London Country routes. No XFs were officially allocated to LH.
